

Bloomberg Ranks Tempus #1 Currency Forecaster for MXN and CAD

Tempus is proud to be named the top currency forecaster for the **Mexican peso** and the **Canadian dollar** in the Bloomberg FX Forecast Accuracy Rankings for Q4 2020. Tempus earned these distinctions above nearly 50 other distinguished global financial institutions, including some of the largest banks in the world. In particular for USD/MXN, Tempus' forecast was within 0.3% despite the pair moving more than 10% within the quarter.

"Volatility seemed to be the only certainty in 2020. It would have been easy to change our forecasts in the face of this but we stuck with our conviction and held our long-term forecasts. We are proud of how it played out," explains John Doyle, VP of Trading & Dealing for Tempus. For over 20 years, Tempus has helped guide thousands of organizations, across virtually all industry sectors, through volatile market conditions—this reaffirms our efforts to deliver the best possible tailored currency and payment solutions to mitigate FX risk.
