

Monex USA Achieves Bloomberg's Top Ranking for USD/CAD and AUD/USD

Monex USA has once again been recognized as a top currency forecaster in the Bloomberg FX Forecast Accuracy Rankings for Q4 2025. We are proud to have secured the #1 ranking for both USD/CAD and AUD/USD, in addition to placing #5 for USD/MXN and #7 overall for G10 currencies.

These accomplishments stand out amongst 49 financial institutions, including some of the largest banks in the world. The rankings for Q4 2025 forecasters were determined based on three key criteria: margin of error, timing, and directional accuracy.

"We did not waver in our convictions over the last several months, despite the high degree of uncertainty in the market, and we are thrilled to retain our seat among the most accurate FX forecasters as a result. As a relatively new addition to the Trading desk, I could not be more excited to have joined such a highly ranked team and to have been able to contribute from day one. We will continue to stand by our clients and assist them in navigating volatile foreign currency markets with the same high level of service and analysis they have come to expect as we roll into the new year." – Andrew Hazlett, Associate Director of Trading at Monex USA

For more than 25 years, Monex USA has supported thousands of organizations across various industries, navigating volatile markets with our expert teams and innovative digital payment solutions. Ready to streamline your payments? Contact us today!
